

Omex CocoBoost

FUNCTION

Omex CocoBoost is a high concentration fully soluble suspension fertiliser designed for application to foliar parts of the crop. For use on cocoa and many crops including maize, sorghum, tomatoes, vegetables, fruits, tree crops and cereals.

Benefits include:

- Improves yield quality and appearance
- Confers tolerance to black pod disease by improving nutritional health
- Reduces nutritional deficiencies
- Relieves periods of stress

DESCRIPTION

Omex CocoBoost is a highly concentrated water soluble suspension containing NPK, magnesium and chelated trace elements.

Analysis of Omex CocoBoost

			Wt/Wt*	Wt/Vol
Nitrogen		N	6.00%	8.30%
Phosphate		P ₂ O ₅	23.50%	32.40%
Potassium		K ₂ O	15.30%	21.10%
Magnesium		MgO	0.50%	0.069%
Iron	(EDTA)	Fe	0.052%	0.0717%
Manganese	(EDTA)	Mn	0.026%	0.0358%
Zinc	(EDTA)	Zn	0.027%	0.0372%
Boron		B	0.010%	0.0138%
Cobalt	(EDTA)	Co	0.0004%	0.0005%
Molybdenum		Mo	0.0004%	0.0005%

pH (10% solution)

3.2-4.2

Specific Gravity

1.36-1.40 @18°C

*For registration purposes Wt/Wt concentrations are recommended.

DIRECTIONS FOR USE

The spray tank should be filled with half of the required amount of water. Measure the required amount of Omex CocoBoost and add to the tank whilst maintaining constant agitation.

Add remaining water to correct dilution. Spray.

DILUTION: Recommended water rate is 200-1500 Litres per hectare

Always shake container before opening

Recommendations for use:

CROP	TIMING OF APPLICATIONS	RATE	COMMENTS
Cocoa & other tree crops	From start of pod/fruit development	120ml/15L water (4L/ha)	Apply to foliage and pods/fruit 5 times at 3 week intervals
Vegetables	From early in crop cycle	60ml/15L water (2L/ha)	3 applications at 2 week intervals
Cereals	From 4-6 leaf stage	60ml/15l water (2L/ha)	2 applications, first after 4-6 leaf stage, second during grain development

TANK MIXING COMPATIBILITY

Omex CocoBoost is compatible with most, but not all, pesticides, growth regulators and micro-nutrients with regard to physical tank mixing and biological effects on the crop. However, Omex cannot accept any liability for any loss or damage as not all pesticides have been tested and because the efficacy of any mix will depend on, among other factors, the pesticide concerned, crop conditions, growth stage, weather and volumes of water used.

PRECAUTIONS

Omex CocoBoost should be stored in frost free conditions with optimum storage range between 5-40°C. Omex CocoBoost is a non-hazardous and non-flammable foliar fertiliser. Gloves and face shield should be worn when handling the concentrate. In situations of prolonged storage there may be slight settling of the nutrient particles. This is reversible on shaking.

PACKING: Omex CocoBoost is available in HDPE drums of 0.25L, 0.5L, 1L, 3L, 5L, 10L capacity. Drums are fitted with tamper evident closures. 200 and 1000 Litre mini bulk available.
